Sinopsis

ISBN: 9780761919711

"Paton has a distinguished career as an evaluation researcher and his experience in applying the tools of qualitative research to address the questions and concerns of those in the world of practice come through clearly_ a gem of a discussion of sampling strategies in qualitative research that is useful not only to prospective researchers but also to more seasoned ones. It is the most complete and carefully reasoned consideration of sampling in qualitative research that I have encountered"
