Sinopsis

ISBN: 1844073785

Sometimes it takes just one human being to tip the scales and change the course of history. In the year 2007, that human being will either move to a city or be born in one. Demographers watching urban trends will mark it as the moment when the world entered a new urban millennium, a period in which, for the first time in history, the majority of the world's people will live in cities.
