Sinopsis

ISBN: 0029216052

In this definitive and revealing history, Henry Mintzberg, the iconoclastic former president of the Strategic Management Society, unmasks the press that has mesmerized so many organizations since 1965: strategic planning. One of our most brilliant and original management thinkers, Mintzberg concludes that the term is an oxymoron -- that strategy cannot be planned because planning is about analysis and strategy is about synthesis. That is why, he asserts, the process has failed so often and so dramatically.
