**Año:** 2006

**Tema:**

**Edición:** 1ª

**Sinopsis**

**ISBN:** 0262562197

Fox refers to his own approach to General Ethics as the "theory of responsive cohesion." He argues that the best examples in any domain of interest--from psychology to politics, from conversations to theories--exemplify the quality of responsive cohesion, that is, they hold together by virtue of the mutual responsiveness of the elements that constitute them. Fox argues that the relational quality of responsive cohesion represents the most fundamental value there is.
