Edición: 1ª

Sinopsis

ISBN: 9781420047998

Showcasing the expertise of top-tier specialists who contributed to the newly released guidelines for the care of thrombosis in cancer patients, this exciting guide was written and edited by members of the American Society of Clinical Oncology panel, (ASCO), on the prevention and treatment of cancer-associated thrombosis, among others, and provides an authoritative discussion of strategies to effectively implement and interpret the new ASCO/NCCN directives. Standing as the only up-to-date source to readily examine exciting new translational science findings regarding the biology of cancer-associated thrombosis, as well as new clinical recommendations, this guide supplies an authoritative and current discussion of the mechanisms, management, and prevention of cancer-associated thrombosis.
