Sinopsis

ISBN: 9780521520980

This textbook for advanced students and professionals in management and finance explains the financial appraisal of capital budgeting projects. It develops basic concepts, principles and techniques and applies them to case studies forestry on property and international investments. Resource constraints are introduced to the capital budgeting decisions with a variety of worked examples using linear programming technique. All calculations are extensively supported by Excel workbooks on the Web, and end of chapter questions.
