**Año:** 2008

**Tema:**

**Edición:** 1ª

**Sinopsis**

**ISBN:** 9780374166854

The litany of dangers has been told many times before, but Mr. Friedman's voice is compelling and will be widely heard. Heads will be nodding across airport lounges, as readers absorb Mr. Friedman's common sense about how America and the world are dangerously addicted to cheap fossil fuels while we recklessly use the atmosphere as a dumping ground for carbon dioxide.
