Sinopsis ISBN: 9781599048284

As the various types of global e-business grow rapidly, the need to establish adequate cyberlaws is increased. Reformation of domestic and global laws has been underway; however, the nature of e-business is one of constant technological developments, consistently outdating existing laws. Cyberlaw for Global E-Business: Finance, Payment & Dispute Resolution examines cyberlaw discussions worldwide on topics such as cybercrime and risk management, comparative electronic trading systems of securities, digital currency regulation, jurisdiction and consumer protection in cross-border markets, and case law on international bank transfers. An invaluable resource for policy-makers, business experts, lawyers, scholars, and researchers, this book provides comprehensive research from a global perspective on the legal, technical, and financial implications of e-business.
