With a wide array of theoretical perspectives, a broad range of respected sources, and inclusion of both classic and contemporary studies, this comprehensive, integrated text addresses key issues in the field with a balanced presentation. Edited by Jeanne H. Ballantine and Joan Z. Spade, both of whom actively teach Sociology of Education courses, this text continues to offer theory, methods, and classical and current issues organized around the theme of the open systems approach to make both the pedagogy and presentation of material coherent for students. Thus, the book is not just a collection of articles but a presentation of a holistic view of educational systems.
