Edición: 9ª

Sinopsis

ISBN: 9780321598462

The fully revised Biology: Life on Earth with Physiology, Ninth Edition, has the same friendly writing style appreciated by thousands of students, but with greater emphasis on engaging, real-world applications. New to this edition are "Case Study Continued" sections, which connect a chapter's case study to relevant biological topics covered in the chapter, and "Have you ever wondered?" features that respond to commonly asked questions from students. Thoroughly revised illustrations and expanded critical thinking questions have been added to each chapter and are supplemented by the powerful new MasteringBiology® program that helps students make effective use of their study time outside of the classroom.

For courses not covering plant and animal anatomy & physiology, an alternate version_Biology: Life on Earth, Ninth Edition_is also available.

Package Components:

Biology: Life on Earth with Physiology, Ninth Edition
