Título: Chemical Processes For Environmental Engineering

Autor: Fu Yen, Teh

Precio: \$1498.00

Editorial:

Año: 2007

Tema:

Edición: 1ª

Sinopsis

ISBN: 9781860947599

This book deals with basic principles such as chemical equilibrium and chemical processes, concepts which make up the basic tools necessary to design a more efficient system to solve environmental problems.

Useful as a textbook for both graduate and undergraduate, the material also serves as an excellent source for professional research in the field of environmental engineering or environmental science.

Contents:

Chemical Equilibrium

Water Softening

Precipitation and Stabilization

Ion Exchange

Aeration and Stripping

Coagulation

Disinfection

Combustion and Incinerations

Pyrolysis and Catalysis

Photolysis

Oxidation and Reduction

Corrosion
