Sinopsis

ISBN: 9780321543950

With so many books out there on Mac OS X Leopard, what makes this one better and different is its focus. While other Leopard books can regularly be 500-plus pages, this book cuts through all the technical jargon and gives you exactly what you want: the most important, most requested, and just plain coolest things about Leopard that will change the way you work on your Mac. With Leopard's newest features, this book will show you how to customize your workspace with Spaces, search and view your files fast with Quick Look, restore any file on your system with Time Machine, and much more. Each page covers just one topic, complete with full-color photos and screenshots, making it easy to find what you're looking for fast.
