Edición: 5ª

Sinopsis

ISBN: 9780136061526

This text provides a thematic and comparative approach to the study of religion. The focus of individual chapters gives equal weight to both theoretical issues and to practices as they are reflected in the major religions of the world. It examines the main

ideas that characterize all religious thought and practice, focusing on such fundamental topics as ritual, sacred language, ethics, salvation, and the problem of evil.
