**Sinopsis**

**ISBN:** 9780545105934

These breezy and conversational books explore the mysteries of the human body using a mix of thoroughly researched factual information, amazing anecdotes, and surprising "try-it!" activities. Filled with cartoon illustrations, the text is loosely organized by topic, and well written. "Curious children will find plenty to interest them and answer their questions." - Booklist

Achoo! It's loud, it's yucky, and it's nothing to sneeze at! Kids probe the secrets of illness and sniff out what germs are, why they sometimes make us sick, how our bodies battle them and how vaccines protect us against them.
