Sinopsis

ISBN: 9780545037884

The trees in Chester's part of the forest are being cut down-now he and his family have to find a new home. Chester, who is not interested in having any kind of adventure, is understandably saddened and fearful of what the move might bring. He reluctantly soon sees that the new tree is not so bad, but more importantly, it has brought the unexpected surprise of a new playmate!
