Sinopsis

ISBN: 1560510552

Provides approaches to pavement design including design and management principals, procedures for new construction or reconstruction, and procedures for rehabilitation of existing pavements. Provides material on overlay design methodology and rehabilitation, including seven overlay procedures and associated options. Supersedes 1986 edition of the same title.

This package includes a supplement to the AASHTO Guide for Design of Pavement Structures which includes alternative design procedures for use in place of or in conjunction with sections in the Guide describing Rigid Pavement Design and Rigid Pavement Joint Design.
