**ISBN:** 9781844075959

The future will be powered by sustainable thinking in business, organizations, governments and everyday life. This revolutionary book tackles climate change, sustainability and life success by starting with your mind. It provides proven 'staged-based' methods for transforming thinking and behaviour, beginning first with the reader's own cognitive patterns, then moving to how individuals can motivate other people to change, and finally to how teams and organizations can be motivated to change.
