Sinopsis

ISBN: 9780199535576

One of Austen's five major novels in a revised and updated edition.

The standard Chapman/Kinsley text in a newly set typeface gives a more attractive appearance.

The new notes are fuller and provide more generous contextualization of social habits and Austen's language.

New chronology and bibliography provide up-to-date resources for further reading.

New appendices on social rank and dancing.

Retains Margaret Doody's still critically applauded introduction.
