Sinopsis

ISBN: 9781936114542

The Focus On Middle School Biology Laboratory Workbook accompanies the Focus On Middle School Biology Student Textbook. Students will learn how to organize and perform experiments in the same manner as a scientist would. The workbook includes 10 hands-on experiments that include: classification of living things (taxonomy), cell structure, photosynthesis, plant structure, how single-celled animals move and eat, butterfly and frog life cycles, ecosystems, and more. Each experiment corresponds to a chapter in the Student Textbook. The Focus On Middle School Biology Laboratory Workbook contains 10 black and white chapters. Grades 5-8.
