Sinopsis

Precio: \$1420.00

Año: 2008

Edición: 4^a

ISBN: 9780914098911

Spivak's celebrated Calculus combines leisurely explanations, a profusion of examples, a wide range of exercises and plenty of illustrations in an easy-going approach that enlightens difficult concepts and rewards effort. Ideal for honours students and mathematics majors seeking an alternative to doorstep textbooks and more formidable introductions to real analysis. --This text refers to an out of print or unavailable edition of this title.

This edition differs from the third mainly in the inclusion of additional problems, as well as a complete update of the Suggested Reading, together with some changes of exposition, mainly in Chapters 5 and 20.
