The New York Times bestselling novel about a young man practicing magic in the real world. Like everyone else, precocious high school senior Quentin Coldwater assumes that magic isn't real, until he finds himself admitted to a very secretive and exclusive college of magic in upstate New York. There he indulges in joys of college-friendship, love, sex, and booze- and receives a rigorous education in modern sorcery. But magic doesn't bring the happiness and adventure Quentin thought it would. After graduation, he and his friends stumble upon a secret that sets them on a remarkable journey that may just fulfill Quentin's yearning. But their journey turns out to be darker and more dangerous than they'd imagined. Psychologically piercing and dazzlingly inventive, *The Magicians*, the prequel to the New York Times bestselling book *The Magician King* and the forthcoming *The Magician's Land*, is an enthralling coming-of-age tale about magic practiced in the real world-where good and evil aren't black and white, and power comes at a terrible price.
