## Librería Bonilla y Asociados

Allows students to focus on interpreting the software output and making informed business decisions.

What software do you use in this course? How much software instruction do you want a text to provide and where?

Featured Software- The authors use Excel and Minitab 14 output within the chapters. For those instructors that prefer to use an Excel add-in, PHSTAT2 is featured in Appendix G.

Showcases the most common packages used in the business world. Detailed Software Appendices at the end of each chapter

Provides step-by-step instructions necessary to perform most statistical analysis using Excel and Minitab 14.

Do you assign/grade homework? Would you be interested in an online resouce that offers text specific questions that can be assigned for practice/homework and save you grading time?

PH Grade Assist-Prentice Hall's Internet-based system provides algorithmically generated homework problems.

Provides unlimited practice for the student and scoring, grading, and course management for the instructor.

PHGradeAssist icons appear in the text next to exercises that are in this system.
