Sinopsis

ISBN: 0131873555

Brings together the disciplines of economics, political science, law, and ethics to address a class of management issues of growing importance to the performance of companies. Provides conceptual frameworks for understanding issues in the environment of business and their development; strategy formulation; analysis of the news media; political analysis; the economics and politics of government intervention in markets (regulation, antitrust, and torts); the economics and politics of international trade; the political economy of countries; and ethical analysis and decision-making.
