**Edición:** 1ª

**Sinopsis**

**ISBN:** 076783007994

Bradbury's quiet exploration of a future that looks so much like the past is sprinkled with lighter material. In "The Silent Towns," the last man on Mars hears the phone ring and ends up on a comical blind date. But in most of these stories, Bradbury holds up a mirror to humanity that reflects a shameful treatment of "the other," yielding, time after time, a harvest of loneliness and isolation.
