**Título:** Chemistry: The Central Science

**Autor:** Brown/ Lemay/ Bursten

**Precio:** \$845.00

**Editorial:**

**Año:** 2006

**Tema:**

**Edición:** 10ª

**Sinopsis**

**ISBN:** 9780131096868

While most of the one year chemistry texts cover more or less the same principles, the order varies, the illustrations are similar, but they vary most in the way they explain the material. It is in the vocabulary they use and develop that helps the student develop the intuitions, understanding, and skills the authors are after. This is a very well written text that is useful for non-chemistry majors as well as science students needing an introductory course in chemistry.
