The Americans explores the story of United States history, weaving the reflections of people who experienced history firsthand throughout the narrative. Thought-provoking lessons make history human and relevant to students' everyday lives, helping them realize the richness of our nation's history.

The Americans makes history human through the personal voices of ordinary and extraordinary Americans who played a key role in, or were affected by, past events.

Inspiring accounts make history come alive as students examine daily life in different eras and discover how the past has influenced the present.
