Título: Geometry Revisited (New Mathematical Library)

Autor: Coxeter / Greitzer

Precio: \$420.00

Editorial:

Año: 1967

Tema:

Edición: 1^a

Sinopsis

ISBN: 9780883856192

Among the many beautiful and nontrivial theorems in geometry found in Geometry Revisited are the theorems of Ceva, Menelaus, Pappus, Desargues, Pascal, and Brianchon. A nice proof is given of Morley's remarkable theorem on angle trisectors. The transformational point of view is emphasized: reflections, rotations, translations, similarities, inversions, and affine and projective transformations. Many fascinating properties of circles, triangles, quadrilaterals, and conics are developed.
