Sinopsis

ISBN: 9780619216436

A growing segment of the market have begun teaching Systems Analysis and Design using an object-oriented approach. This new approach has been widely recognized as the future of the analysis and design market by students and instructors. Building on the well renowned Systems Analysis and Design in a Changing World, Third Edition by John Satzinger, Robert Jackson and Stephen Burd, the authors have recreated this object-oriented text for anyone looking for this new approach. All texts are accompanied by a free 120-day trial version of Microsoft Project 2003 to give students a hands-on experience with this new software.
