Sinopsis

ISBN: 9780253214034

Force of Imagination carries out a radical turn to the sensible and to the elemental in nature. Liberated from subjectivity, imagination is shown to play a decisive role both in drawing together the moments of our experience of sensible things and in opening experience to the encompassing light, atmosphere, earth, and sky. Set within this elemental expanse, the human sense of time, of self, and of the other proves to be inextricably linked to imagination and to nature.
