Título: Modern Semiconductor Device Physics.

Autor: Sze , S. M. (Edit.)

Precio: \$1860.00

Editorial:

Año: 1998

Tema:

Edición: 1^a

Sinopsis

ISBN: 9780471152378

The companion volume to Dr. Sze's classic Physics of Semiconductor Devices, Modern Semiconductor Device Physics covers all the significant advances in the field over the past decade. To provide the most authoritative, state-of-the-art information on this rapidly developing technology, Dr. Sze has gathered the contributions of world-renowned experts in each area. Principal topics include bipolar transistors, compound-semiconductor field-effect-transistors, MOSFET and related devices, power devices, quantum-effect and hot-electron devices, active microwave diodes, high-speed photonic devices, and solar cells.
