Edición: 1ª

Sinopsis

ISBN: 9781605661162

Selected Readings on Global Information Technology supplements course instruction and student research with quality chapters focused on key issues concerning the development, design, and analysis of global IT. Containing over 30 chapters from authors across the globe, these selected readings in areas such as knowledge sharing, ICTs, and globalization depict the most relevant and important areas of classroom discussion within the categories of fundamental concepts and theories; development and design methodologies; tools and technologies; application and utilization; critical issues; and emerging trends.
