**Título:** Principles Of Computational Cell Biology

**Autor:** Volkhard Helms

**Precio:** \$1160.00

**Editorial:**

**Año:** 2008

**Tema:**

**Edición:** 1<sup>a</sup>

**Sinopsis**

**ISBN:** 9783527315550

This first textbook of its kind provides an ideal introduction to the field for students of biology and bioinformatics. Carefully designed study exercises -- with corresponding answers -- offer excellent support for those preparing for exams in these subjects, and help introduce the more technical aspects of the topic. In particular the text focuses on a network-based approach to the study of cellular systems
