**Título:** Protein Structure Prediction

**Autor:** Igor F. Tsigelny

**Precio:** \$2080.00

**Editorial:**

**Año:** 2002

**Tema:**

**Edición:** 1ª

**Sinopsis**

**ISBN:** 9780963681775

...very timely book...A variety of programs and strategies is discussed, including new applications of HMM and novel Bayesian approaches -- Russell F. Doolittle, Professor, University of California San Diego

Most comprehensive book on protein structure prediction. Describes the main concepts in the field, concrete algorithms, programs and their webaddresses. -- The Medical Bookstore

Presented some of the most important ideas, state-of-art methods in detecting, predicting protein's structure...High-quality text for graduate bioinformatic course. -- Briefings in Bioinformatics. Vol 5, 2, 207-210, 2004

You may find this book by I.F. Tsigelny useful. This is the Bible of all current prediction techniques. -- BioPlanet Bioinformatics Forums: posted on 2-6-2003
