Sinopsis

ISBN: 9780240800714

All writers need to know how to adapt to new technology and thrive in the new opportunities that it provides. This book provides readers with the nuts-and-bolts of scripting for an array of audio-visual (AV) projects, whether it be a simple slide show, a multi-image presentation, a computer-based interactive program, or a major multi-area extravaganza. The book is very readable and would be extremely good for reference.
