Sinopsis

ISBN: 9781419535703

What do Citibank, the Wall Street Journal, and the Donald Trump Hotels and Casino Resorts have in common? They all have used the universal principles of feng shui, the traditional Chinese discipline of spatial energies, to improve their environments and enhance their businesses. In the past few years, feng shui has crossed cultures to become an effective tool for the nation's top architects and designers_and their clients.
