**Título:** Engineering Magneto hydrodynamics

**Autor:** Sutton And Sherman

**Precio:** \$420.00

**Editorial:**

**Año:** 1993

**Tema:**

**Edición:** 1<sup>a</sup>

**Sinopsis**

**ISBN:** 9780486450322

The first section of this three-part treatment deals mainly with properties of ionized gases in magnetic and electric fields, essentially following the microscopic viewpoint. Part II addresses macroscopic motion of electrically conducting compressible fluids. Part III draws upon the material developed in previous sections to explore applications of magneto hydrodynamics
