Sinopsis

ISBN: 9780486446851

Magnificently reprinted from more than 25 rare early editions, these 86 illustrations include many plates that have not been reproduced in decades. They span Rackham's career _ his landmark 1905 edition of Rip Van Winkle to masterworks such as Undine and A Midsummer Night's Dream and his final publication, Wind in the Willows, in 1939.
