ISBN: 9780618738793

General Chemistry, 8/e, Media Enhanced Edition provides instructors the latest technology for their courses. Created to meet the rapidly changing instructional needs of General Chemistry professors, this edition includes an enhanced technology program that reinforces the approach of the text and updated information within the text to help students and instructors use these resources effectively. The Media Enhanced Edition provides access to assessment, tutoring, and presentation materials, including online homework, video lessons from Thinkwell, and a multimedia eBook, through Eduspace, Houghton Mifflin's Online Learning Tool. These resources make learning more dynamic and course planning, presentation, and management more intuitive. Known for its carefully developed, thoroughly integrated approach to problem solving, this market-leading text emphasizes the conceptual understanding and visualization skills essential for first-year chemistry and science majors. General Chemistry, 8/e, Media Enhanced Edition retains the hallmark pedagogical features of General Chemistry, 8/e, and expands upon the conceptual focus and art program through new interactive tutorials and animations.
