Kindergarten-Grade 4-Informational tidbits appear alongside exquisitely designed pop-up constructions in this visually stunning overview of all things dinosaur. Each spread features a spectacular paper sculpture of a particular species (e.g., Ankylosaurus or Triceratops) along with a brief paragraph of text. Smaller foldout sections, which open like miniature books and also incorporate pop-ups, cover additional topics (Dinosaur Detectives and Mystery Extinction) and introduce other dinosaurs and their characteristics. Rendered in warm earth tones and speckled with splashes of color, the three-dimensional creatures move with a life of their own as they gracefully extend their bodies into a full stretch or lurch toward readers with jaws open wide.
