Sinopsis

ISBN: 9780531175323

Is it possible to read another person's mind? Learn about mentalists, psychics, and magicians in this book from the 24/7 series.

Science as inquiry is the core of this dynamic, investigative, high-interest series for grades 8-12 focusing on the science and technology used to solve real-life crimes and heart-stopping mysteries.

From killer wallpaper to deadly pets, from parasites to mosquitos, these high-interest books build vocabulary, foster scientific knowledge, and develop inquiry skills through the use of charts, timelines, briefing notes, case files, primary sources, and captivating storytelling.

Series Features

- | Background information to build content-area knowledge
- | Chapter summaries and questions that recap the evidence
- | Reading cues such as: prompts, call-outs, highlighted words, diagrams, and primary sources
