Grammar Corner, a natural approach is a supplementary ESL grammar series to accompany primary-level EFL courses. Grammar Corner presents a grammar curriculum central to mastery of English in a natural way. The grammar concepts and activities are designed to meet the needs of elementary school students from first to sixth grade. Age-appropriate grammar structures and activities, as well as constant linking and cumulative reviews, ensure that students reuse the grammar concepts and build on them. Achievable but challenging grammar targets help students maintain a sense of interest and motivation.

Grammar Corner uses a spiral syllabus throughout the six levels. This allows students the freedom to study from any book in the series without missing key grammar points. Each level is comprised of twenty-four lessons, and each lesson provides the content for one standard academic class. The cumulative quizzes and progress tests provided are an easy way to monitor students' understanding of the material. Designed with clearly arranged notes, the Teacher's Guide provides the tools to quickly prepare each day's lesson.
