Título: A1-Algebraic Topology Over a Field

Autor: Morel, Fabien	Precio: \$960.00
Editorial:	Año: 2012
Гета:	Edición: 1ª
Sinopsis	ISBN: 9783642295133

This text deals with A1-homotopy theory over a base field, i.e., with the natural homotopy theory associated to the category of smooth varieties over a field in which the affine line is imposed to be contractible. It is a natural sequel to the foundational paper on A1-homotopy theory written together with V. Voevodsky. Inspired by classical results in algebraic topology, we present new techniques, new results and applications related to the properties and computations of A1-homotopy sheaves, A1-homology sheaves, and sheaves with generalized transfers, as well as to algebraic vector bundles over affine smooth varieties.
