The TMS320C6x is Texas Instrument's next generation DSP found in over 60 percent of wireless devices from leading manufacturers such as Ericsson, Nokia, Sony, and Handspring

Author has many years experience working with the TI line of TMS DSPs and his books are based on courses and seminars given at TI sponsored meetings

All programs listed in the text will be available on the Wiley FTP site

In addition to its wireless applications, the TMS DSP is tailored to enable a new generation of Internet media entertainment appliances
