Recent news about one of our authors!

Jerome Lavelle, co-author Engineering Economic Analysis, 11E, won the 2011 Wellington Award, which is given at the Institute of Industrial Engineers (IIE) Annual Conference & Expo and recognizes outstanding contributions in the field of engineering economy. His co-authors, Donald Newnan and Ted Eschenbach, have both taken home the prize in the past.

This eleventh edition of the market-leading Engineering Economic Analysis offers comprehensive coverage of financial and economic decision-making for engineers, with an emphasis on problem solving, life-cycle costs, and the time value of money. The authors' concise, accessible writing, practical emphasis, and contemporary examples linked to students' everyday lives make this text the most popular among students. And with the most extensive support package, this is the easiest book to teach from.
