Sinopsis

ISBN: 9781592233243

Concept Cars is an illustrated guide to 70 of the most creative products of car design. From the science fiction inspired concept cars of the 1950s to the remarkably innovative designs of the present day, here are the cars that push the boundaries of automotive design to the limit. Featured are designs that opened the doors to future innovations, as well as the cars that actually made it to production, such as the new VW Beetle and the Porsche Boxster. Key car designers such as Norman Bel Geddes, the "father of streamlining," and Peter Schreyer, the man responsible for the Audi TT, are covered as well. 190 color photographs and illustrations are included in this discovery of the fantastic, the extraordinary, and just plain outlandish creations of the automotive industry.
