Sinopsis

ISBN: 9780199539000

Whitman is today regarded as America's Homer or Dante, and his work the touchstone for literary originality in the New World. In *Leaves of Grass*, he abandoned the rules of traditional poetry - breaking the standard metred line, discarding the obligatory rhyming scheme, and using the vernacular. Emily Dickinson condemned his sexual and physiological allusions as 'disgraceful', but Emerson saw the book as the 'most extraordinary piece of wit and wisdom that America has yet contributed'. A century later it is his judgement of this autobiographical vision of the vigour of the American nation that has proved the more enduring. This is the most up-to-date edition for student use, with full critical apparatus.

ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Readership: General; students at undergraduate level following courses on American literature or American/world poetry.
