Título: The Collected Mathematical Papers Of Henry John Stephen Smith

Autor: J. W. L. Glaisher

Precio: Desconocido

Editorial:

Año: 1965

Tema:

Edición: 1ª

Sinopsis

ISBN: 9780828401876

This publication includes all the mathematical papers of H.J.S. Smith in chronological order, enabling readers to trace the course of his mathematical studies and tastes. Most of the papers are in English, some of the papers or notes are in French. His work falls into three distinct groups: Geometry, Theory of Numbers, and Elliptic Functions. The first paper in Volume II [Mémoire sur quelques problèmes cubiques et biquadratiques] was a prize memoir for which, cojointly with another memoir, the Steinder Prize of the Berlin Academy was awarded. This publication also includes a Biographical Sketch by Charles H. Pearson; Recollections of Henry J.S. Smith by Jowett, Lord Bowen, J.L. Strachan-Davidson and Alfred Robinson; Introduction to the Mathematical Papers by the Editor, J.W.L. Glaisher.

Table of Contents

Volume I

On some of the methods at present in use in pure geometry

On some geometrical constructions

De compositione numerorum primorum formae $4n+1$ ex duobus quadratis

On the history of the researches of mathematicians on the subject of the series of prime numbers

Report on the theory of numbers. Part I

Report on the theory of numbers. Part II

Report on the theory of numbers. Part III

Report on the theory of numbers. Part IV

Report on the theory of numbers. Part V

Report on the theory of numbers. Part VI

On systems of indeterminate linear equations

On systems of linear indeterminate equations and congruences

On the criterion of resolubility in integral numbers of the indeterminate equation

Teléfonos: 55 44 73 40 y 55 44 72 91

$$f = ax^2 + a'x^2 + a''x^2 + 2bx^2 + 2b'xx^2 + 2b''x^2 = 0$$

- On the orders and genera of quadratic forms containing more than three indeterminates
- On complex binary quadratic forms
- On a formula for the multiplication of four theta functions
- On the orders and genera of ternary quadratic forms
- On the orders and genera of quadratic forms containing more than three indeterminates
- On some geometrical constructions
- Observatio geometrica
- On the focal properties of homographic figures
- On the focal properties of correlative figures

Volume II

- Mémoire sur quelques problèmes cubiques et biquadratiques
- Arithmetical notes
- On the integration of discontinuous functions
- On the higher singularities of plane curves
- Mathematical notes
- Note on continued fractions
- Note on the theory of the Pellian equation, and of binary quadratic forms of a positive determinant
- On the value of a certain arithmetical determinant
- On the present state and prospects of some branches of pure mathematics
- On the conditions of perpendicularity in a parallelepipedal system
- On the conditions of perpendicularity in a parallelepipedal system
- Sur le intégrales elliptiques complètes
- Mémoire sur les équations modulaires
- On the singularities of the modular equations and curves
- Note on a modular equation of the transformation of the third order
- Note on the formula for the multiplication of four theta functions
- De fractionibus quibusdam continuis
- On some discontinuous series considered by Riemann
- Notes on the theory of elliptic transformation
- Notes on the theory of elliptic transformation
- Memoir on the theta and omega functions
- Mémoire sur la représentation des nombres par des sommes de cinq carrés

Appendix

Address to the mathematical and physical section of the British Association at Bradford in 1873

Arithmetical instruments

Geometrical instruments and models

Introduction to the mathematical papers of William Kingdon Clifford
