This Foreign Affairs bestseller from MSNBC terrorism expert Walid Phares allows a frightening look into the future of jihad. Phares--who has served as an expert with the Justice Department, briefed the Defense and State Departments, and testified to Congress--shows that there has been a fundamental misunderstanding about al Qaeda's ultimate goal in the West and what victory means to jihadists. Future Jihad shows how our defenses have been infiltrated; identifies the future generation of home-grown terrorists; and points the way for America to win the ideological war at the heart of jihad.
