Título: Numerical Ecology Vol. 24

Autor: Legendre, Pierre / Legendre, Louis Precio: \$2199.00

Editorial: Año: 2012

Tema: Edición: 3ª

Sinopsis ISBN: 9780444538680

The book describes and discusses the numerical methods which are successfully being used for analysing ecological data, using a clear and comprehensive approach. These methods are derived from the fields of mathematical physics, parametric and nonparametric statistics, information theory, numerical taxonomy, archaeology, psychometry, sociometry, econometry and others. An updated, 3rd English edition of the most widely cited book on quantitative analysis of multivariate ecological data

Relates ecological questions to methods of statistical analysis, with a clear description of complex numerical methods

All methods are illustrated by examples from the ecological literature so that ecologists clearly see how to use the methods and approaches in their own research

All calculations are available in R language functions
