Título: Applied Partial Differential Equations

Autor: Duchateau, Paul / Zachmann, David

Precio: \$659.00

Editorial:

Año: 2002

Tema:

Edición: 1^a

Sinopsis

ISBN: 9780486419763

Superb introduction devotes almost half its pages to numerical methods for solving partial differential equations, while the heart of the book focuses on boundary-value and initial-boundary-value problems on spatially bounded and on unbounded domains; integral transforms; uniqueness and continuous dependence on data, first-order equations, and more. Numerous exercises included, with solutions for many at end of book. For students with little background in linear algebra, a useful appendix covers that subject briefly
